The RMS5253 rack mount industrial computer Series is an ultra high performance design in a low cost 2U rack mount enclosure. Feature rich, the RMS5253 rack mount industrial computer is a solid, robust design that will meet the most rigorous and demanding requirements. This RMS5253 rack mount industrial computer is ideal for drive intensive, space limited applications. The depth of the chassis is only 15".

The RMS5253 rack mount industrial computer provides for one externally accessible 5.25" and one slim type 3.5" drive bays. In addition, three internal hard drive bays can easily be configured for a large RAID. The RMS5253 rack mount industrial computer is also ideal for data intensive or mission critical applications.

The RMS5253 rack mount pc's chipset integrated features include AGP or 16X PCI-Express video controller, AC'97 or Intel high-definition audio, Gigabit Ethernet LAN, parallel or serial ATA interface, as well as optional RAID controller. And if more add-on functions are required, there are three open PCI slots ready to accept expansion cards.
